

The diagram illustrates a cross-section of a roof assembly. It features a central triangular void labeled "Roof". This void is bounded by a red line on the left and right sides, and a blue line on the left and right sides. The bottom of the triangle is defined by a red line and a blue line, both of which are slightly curved upwards. Outside the central void, there are two additional dashed yellow lines that follow the same triangular shape, creating a larger triangular frame around the central assembly.

Roof

The image features three stylized arches, each composed of two concentric lines. The outer line of each arch is blue, and the inner line is red. The arches are positioned on the left, center, and right sides of the frame. In the center, between the arches, the word "Legs" is written in a large, bold, black sans-serif font.

Legs

The diagram shows a wall structure with a semi-circular arch at the top and a rectangular opening below it. The arch and the opening are outlined with two concentric lines, one blue and one red. The word "Wall" is centered within the rectangular opening.
