

The diagram illustrates a cross-section of a roof assembly. It features a central triangular void labeled "Roof". This void is bounded by a blue line on the left and right sides and a red line on the top side. Surrounding this central void are several layers of material, represented by dashed yellow lines and solid blue and red lines. The bottom of the diagram shows a curved red line and a blue line, suggesting a foundation or a specific roof profile. The overall structure is symmetrical and triangular in shape.

Roof

Roof

The diagram illustrates a cross-section of a roof assembly. It features a central triangular void labeled "Roof". This void is bounded by a red line on the left and right sides and a blue line on the top and bottom sides. Surrounding this central void are several additional layers, represented by dashed yellow lines and solid blue lines, suggesting a multi-layered construction. The bottom of the diagram shows a curved blue line, possibly representing a foundation or a specific structural element.

This void is bounded by a red line on the left and right sides and a blue line on the top and bottom sides. Surrounding this central void are several additional layers, represented by dashed yellow lines and solid blue lines, suggesting a multi-layered construction. The bottom of the diagram shows a curved blue line, possibly representing a foundation or a specific structural element.

Roof

The image features four stylized arches, each composed of two concentric curves. The outer curve of each arch is blue, and the inner curve is red. The arches are arranged in a row, with their peaks aligned horizontally. The word "Legs" is written in a large, bold, black sans-serif font in the center of the image, positioned between the second and third arches. The background is a solid light gray.

Legs

The diagram shows a wall structure with a semi-circular arch at the top and a rectangular opening below it. The arch is defined by two concentric semi-circular lines, one blue and one red. The rectangular opening is also defined by two concentric rectangular lines, one blue and one red. The word "Wall" is centered within the rectangular opening.
