

The diagram illustrates a cross-section of a roof structure. It features a central triangular shape defined by a blue outline. Inside this triangle, there are two more nested outlines: a red one and a yellow dashed one. The red outline follows the blue one but has a slight inward curve at the base. The yellow dashed outline is the outermost and also follows the blue one. The word "Roof" is written in a large, bold, black font in the center of the triangular area.

Roof

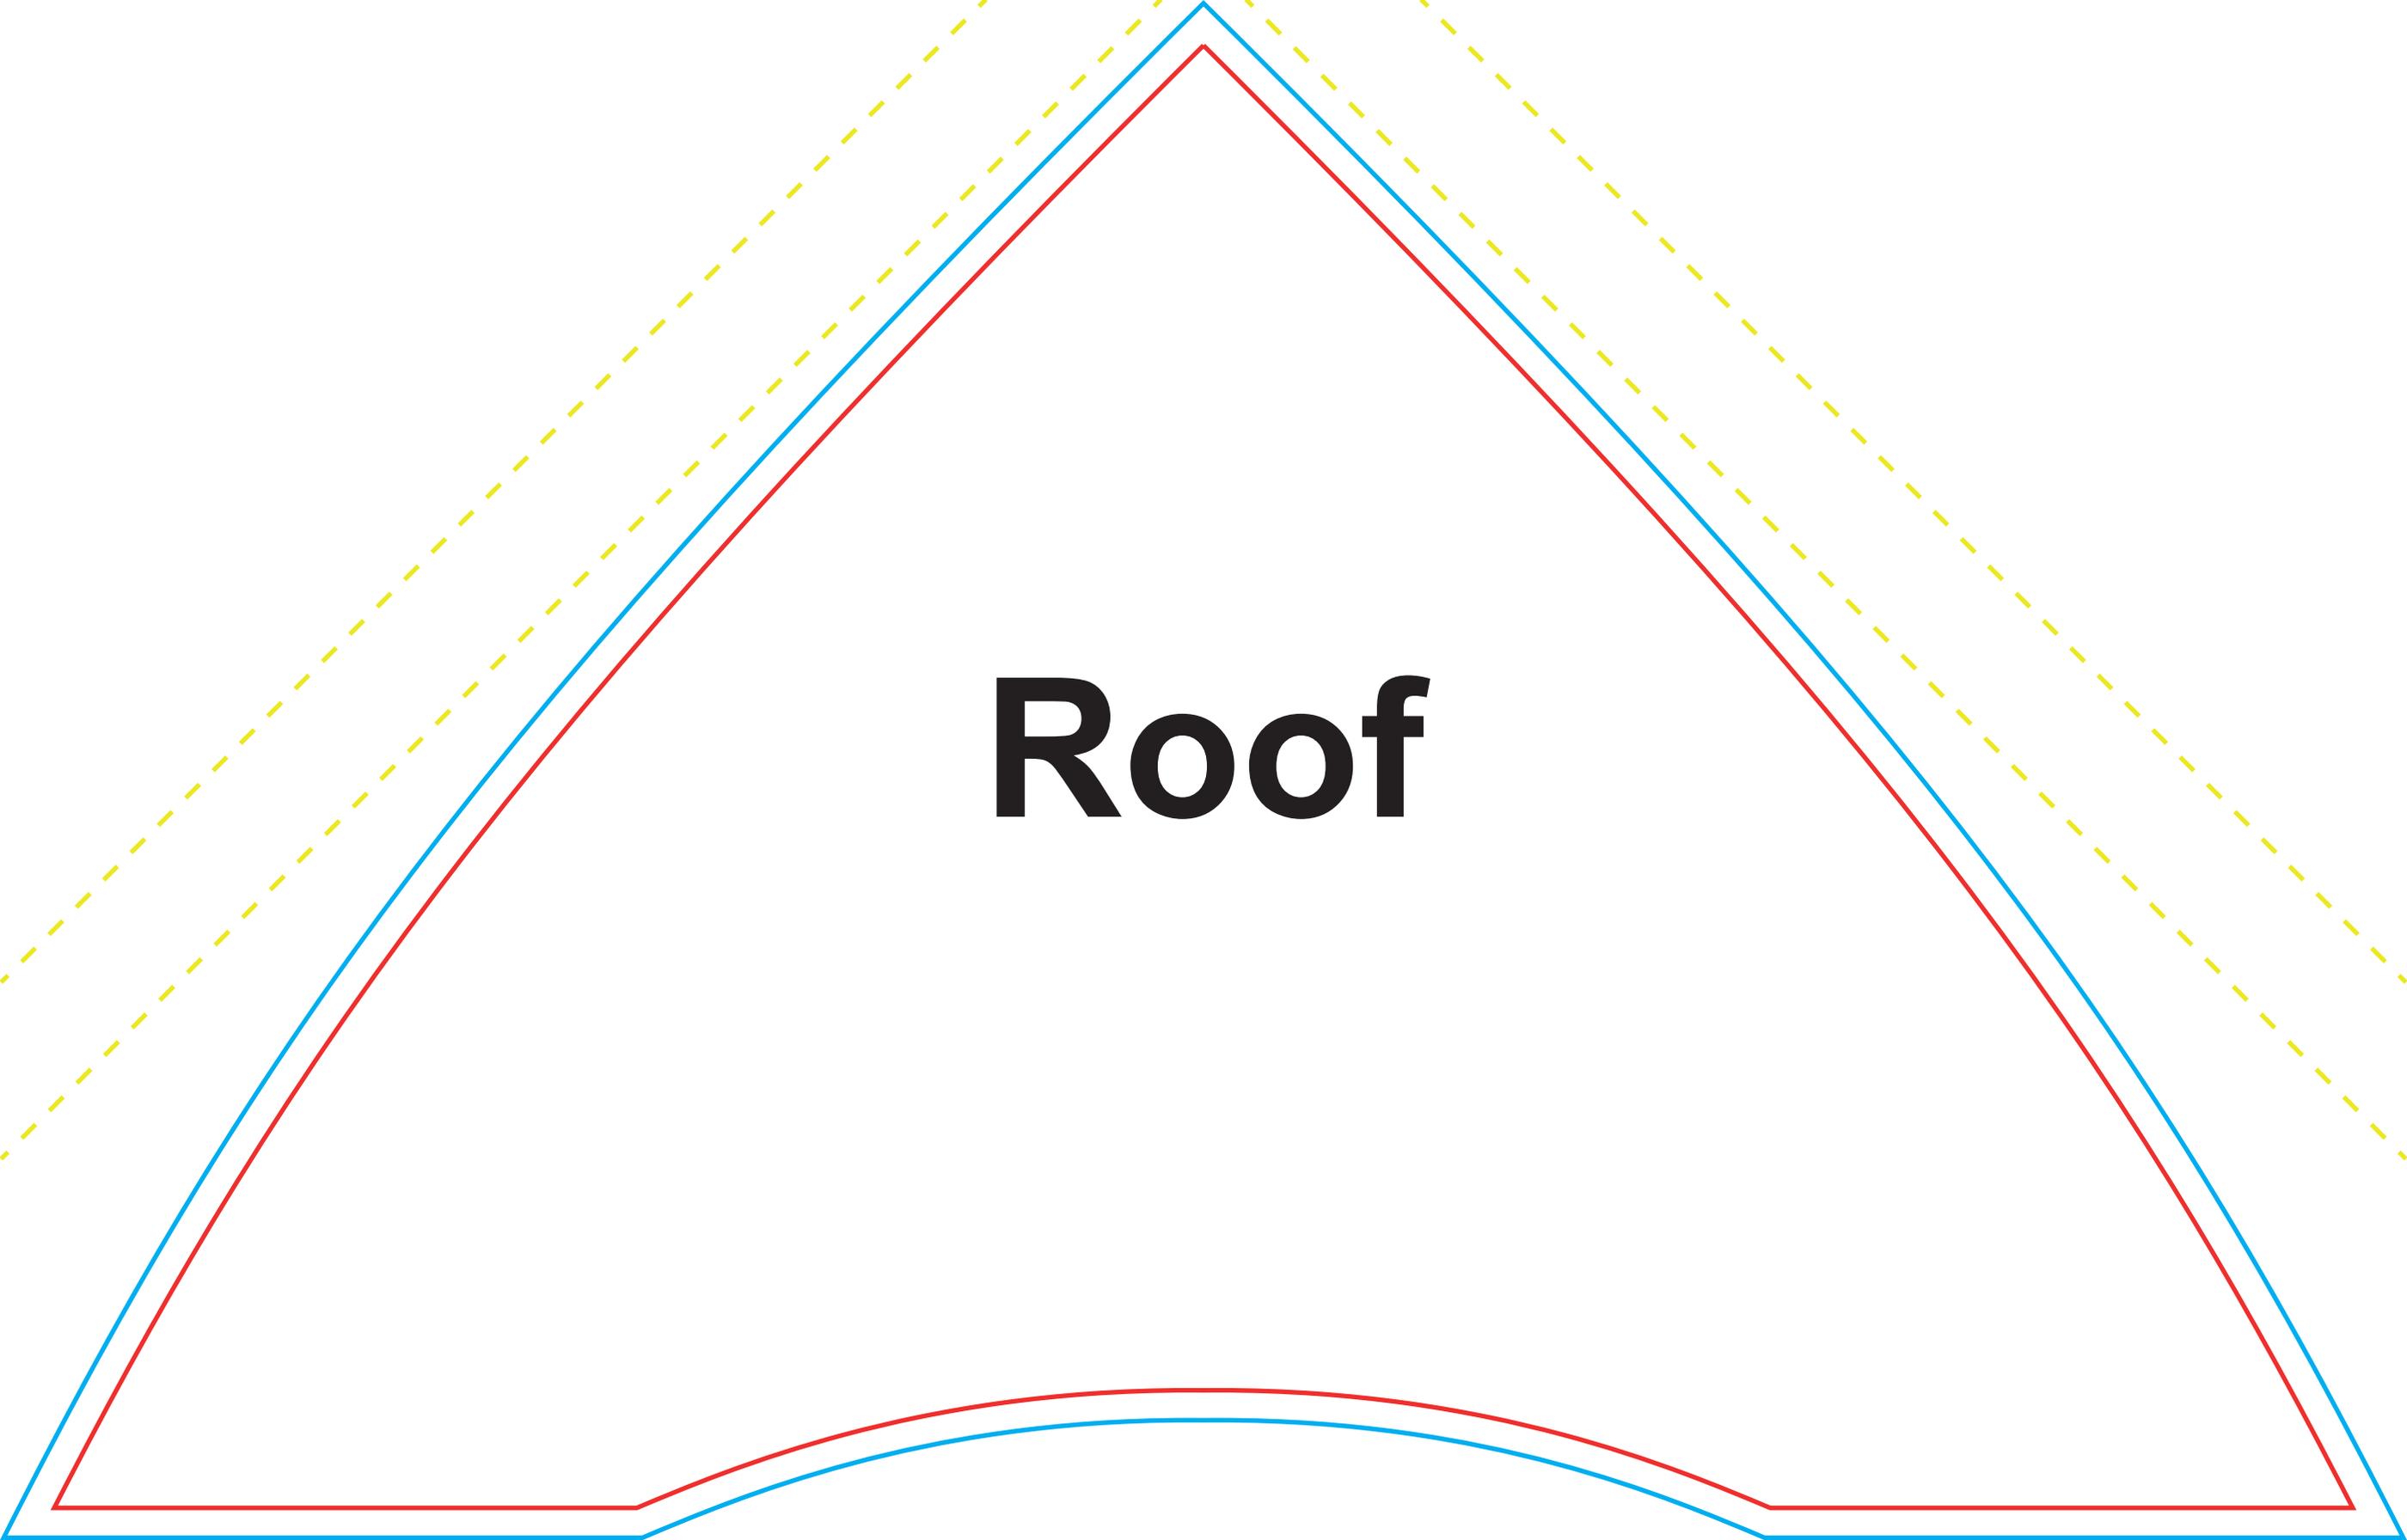

The diagram illustrates a cross-section of a roof structure. It features a central triangular shape defined by a blue outline. Inside this triangle, there are two more nested outlines: a red one and a yellow dashed one. The red outline follows the blue one but has a slight inward curve at the base. The yellow dashed outline is the outermost layer, also following the blue one but with a more pronounced inward curve at the base. The word "Roof" is written in a large, bold, black font in the center of the triangular area.

Roof

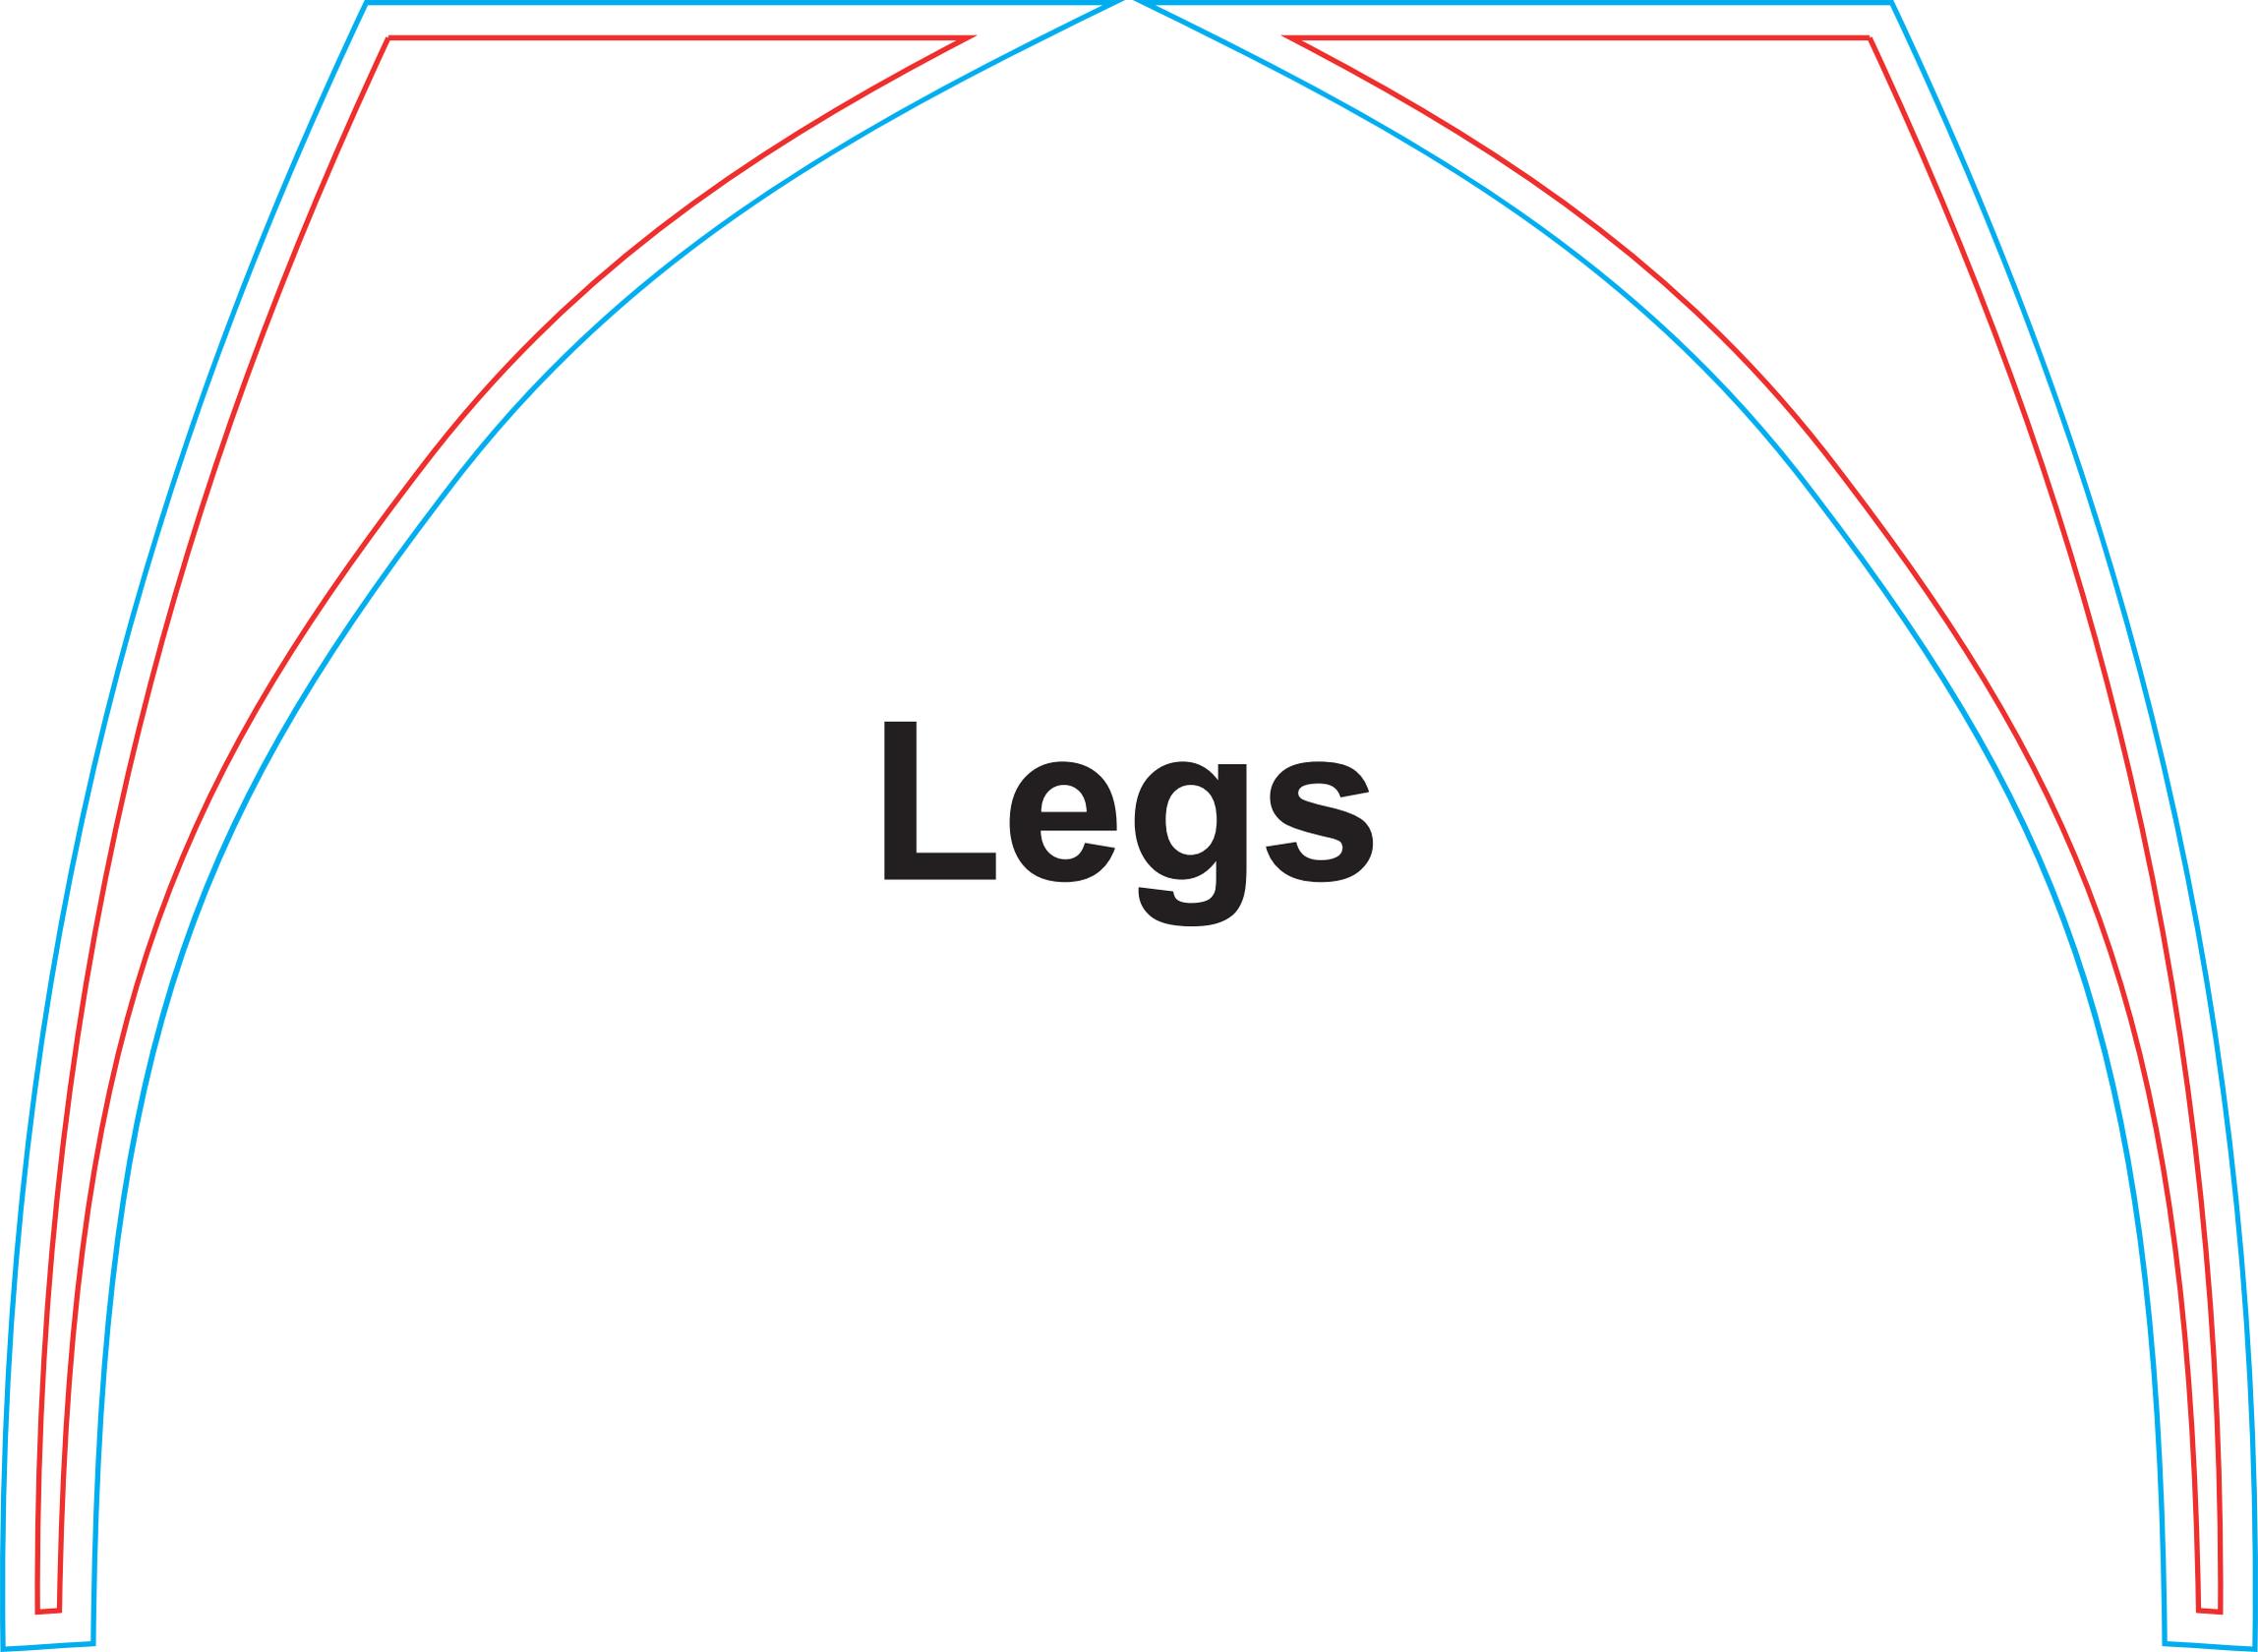

The diagram illustrates a cross-section of a roof structure. It features a central triangular shape defined by a red line, which is enclosed by a blue line. This entire structure is surrounded by two layers of dashed yellow lines, representing insulation or additional structural layers. At the bottom of the diagram, there are two curved lines, one red and one blue, which likely represent the internal structure of the roof's base or a specific type of roof profile. The word "Roof" is written in a large, bold, black font in the center of the diagram.

Roof

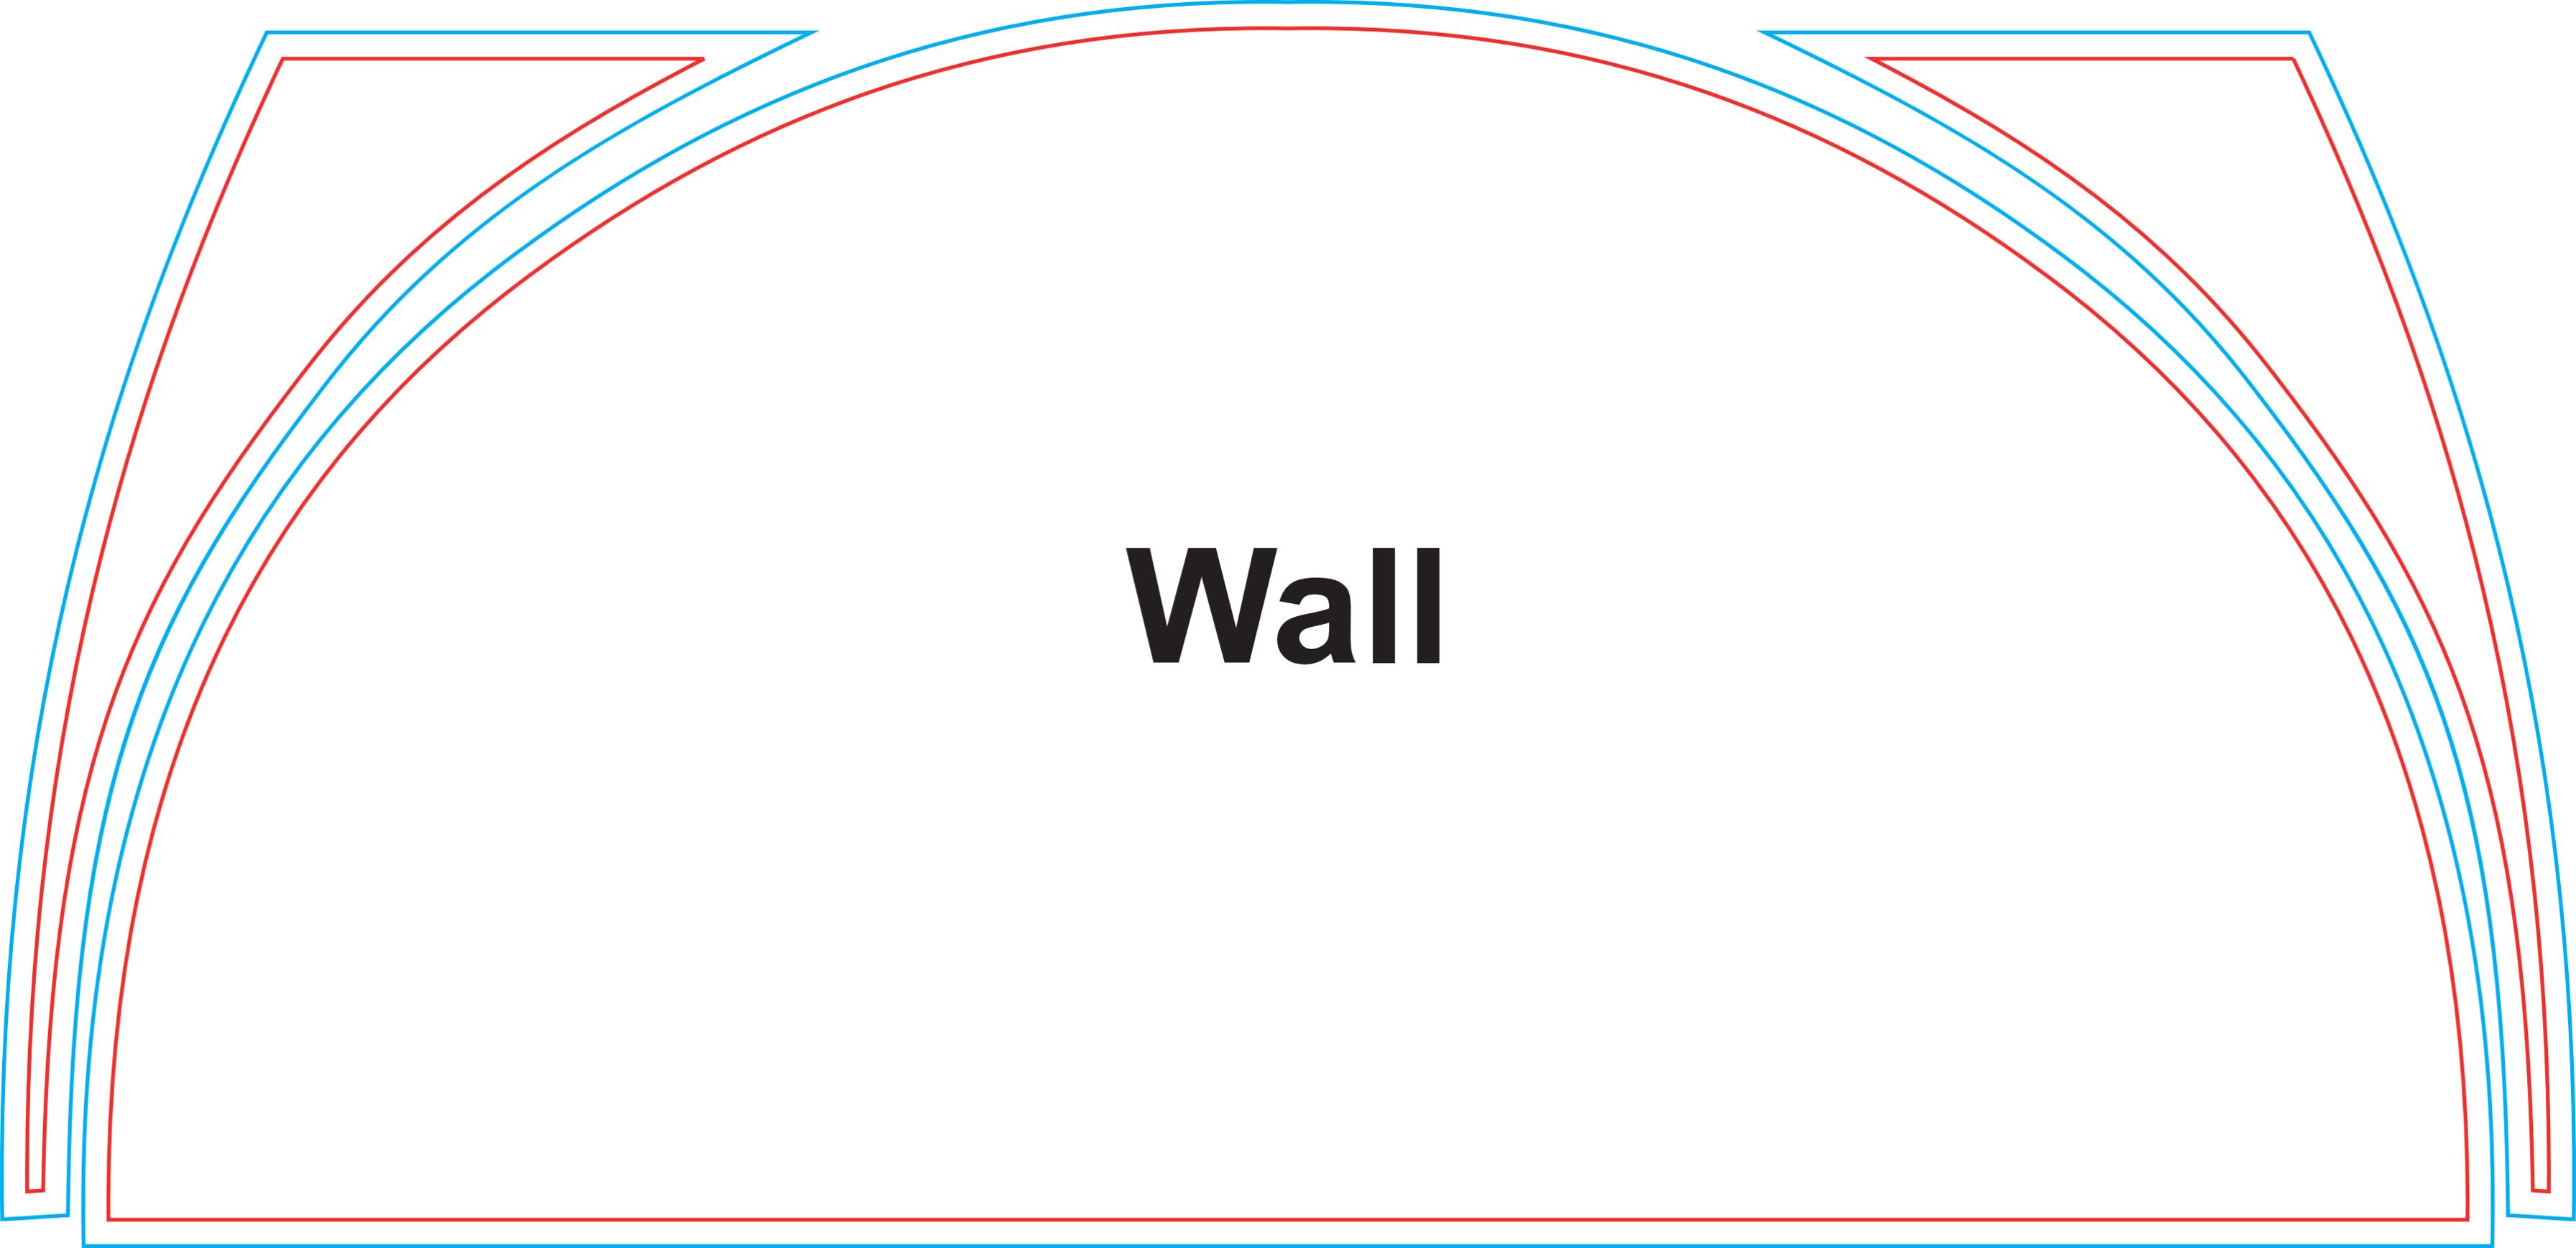

The diagram illustrates a cross-section of a roof structure. It features a central peak with a dashed yellow line representing the outermost boundary. Inside this, there are two solid lines: a blue one and a red one, both following the same curved path. At the base of the roof, there are two horizontal lines, one red and one blue, which are slightly curved upwards in the center. The word "Roof" is written in a large, bold, black font in the center of the diagram.

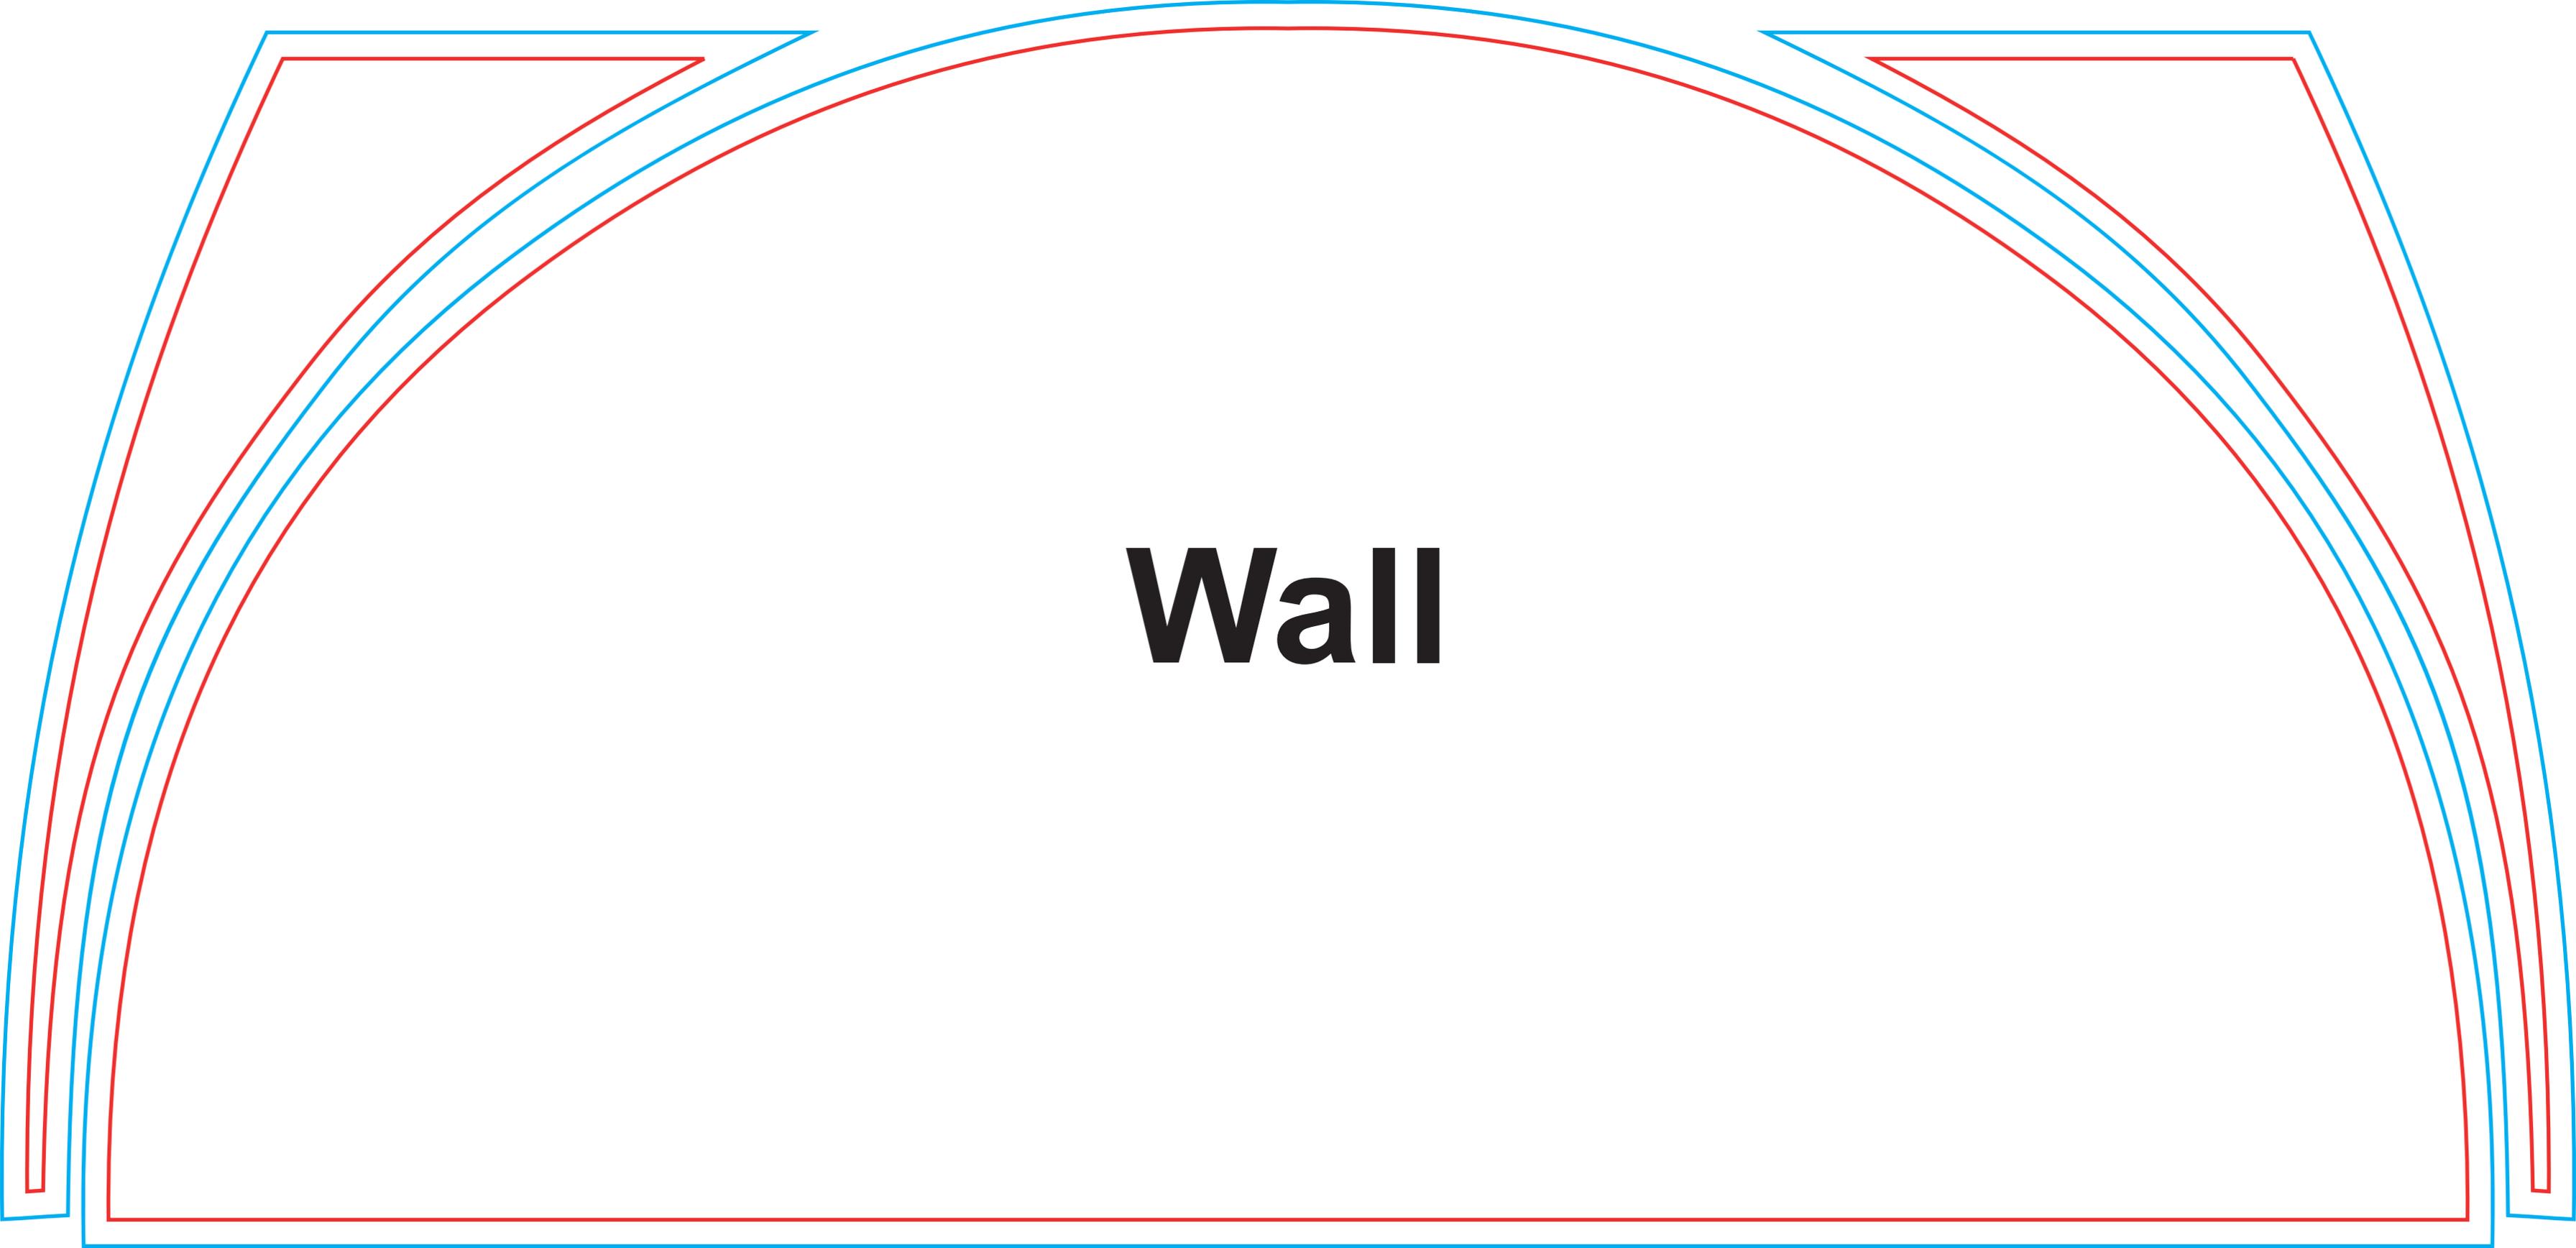

Roof

A diagram of a pair of legs, possibly a stylized or abstract representation. The legs are outlined in red and blue. The red outline is the outer boundary, and the blue outline is the inner boundary. The legs are positioned symmetrically, with the feet pointing downwards and the knees pointing upwards. The word "Legs" is written in a bold, black, sans-serif font in the center of the image.

Legs

Wall

The image shows a cross-section of a wall with a semi-circular arch at the top. The wall is defined by two concentric outlines: an outer blue line and an inner red line. The arch is also defined by two concentric semi-circular lines, one blue and one red, which meet the vertical wall lines at the top. The word "Wall" is written in a bold, black, sans-serif font in the center of the diagram.
